

Dear Participant

Thank you for your interest in TAC Support Coordination Service. We take great pride in our ability to provide a professional service to all NDIS participants and their families/carers.

As a Support Coordinator we help you to understand and make the most of your NDIS plan. We work with you to help find service providers and products that are best suited to your needs. We can help link you with mainstream and community supports, assist with provider service agreements as well as build your capacity to make your own choices.

As we are an independent registered provider, we have no affiliation with any providers and can offer you unbiased support to help you to reach your goals.

If you would like to discuss our Support Coordination service more, please let us know.

Regards

TAC Support Coordination Team
