

Dear Participant

Thank you for your interest in TAC Plan Management Service. We take great pride in our ability to provide a professional service to all NDIS participants and their families/carers.

NDIS Plan Management provides supports in managing your NDIS funds. We handle the day-to-day financial administration that comes with an NDIS plan. This includes processing and paying invoices and keeping track of your fund balance. This allows peace of mind knowing your service providers are getting paid.

Plan Management also allows you to access non registers providers as well as registered providers for a greater access to quality services.

Our services also include a detailed discussion with participants or their family member/carer to understand what each person would like to get out of their NDIS Plan. If you do not have as Support Coordinator, we can assist with finding service providers in your area.

If you would like to discuss our Plan Management service more, please let us know.

Regards

TAC Plan Management Team
